

# ADITYA GHADGE

## Software Engineer

+91 9136795245 | adityaghadge360@gmail.com | [portfolio](#) | [leetcode](#) | [github](#) | [twitter](#) | [linkedin](#)

---

## WORK EXPERIENCE

### Software Engineer

May 2023 - Jul 2023

#### Optriment [Remote | Contract]

- Led the development and thorough testing of smart contracts enabling batch payments on the blockchain, which led to a 20% decrease in transaction costs.
  - Employed cutting-edge technologies like Next.js, TypeScript, Prisma, Solidity, and Foundry to architect and develop application, leading to increased development efficiency and performance improvement.
  - Crafted and implemented robust APIs to significantly enhance system reliability.
- 

## PROJECTS

### Multiplayer Chess [live](#) | [code](#)

- Engineered a real-time multiplayer chess game utilizing React, TypeScript, ExpressJs, WebSockets, TailwindCSS, Redis, and MongoDB.
- Designed and implemented features such as real-time game synchronization and move validation, resulting in a seamless and immersive gaming experience.
- Architected the system for scalability, enabling effortless accommodation of a growing user base, achieving 99.9% uptime.
- Orchestrated AWS deployment using Docker Containers and Swarm for seamless scalability.

### AI Blogger [live](#) | [code](#)

- Leveraged advanced AI models including GPT-4-mini and DALL·E3 to automate the generation of blog content, producing blog posts with 400 words and an accompanying image.
- Getting content creators a head start on their blog writing journey.
- Built the project using a tech stack including Next.js, TypeScript, Clerk, Stripe, and TailwindCSS, resulting in enhanced user engagement and satisfaction.

### AI Blogger Landing Page [live](#) | [code](#)

- Developed an engaging and responsive landing page for an AI Blogger application using Next.js, leveraging server-side rendering for optimized performance.
  - Integrated Framer Motion to create smooth and interactive animations, enhancing the user experience and overall visual appeal of the landing page.
- 

## EDUCATION

### Bachelor Of Science in Information & Technology

Mumbai University

2021 - 2024

CGPA: 8.72
